

## Day 2 Assignment.

Draw a flowchart for positive even odd, Negative even odd, & zero

② write the pseudocode and draw the flowchart for first 10 multiples of any number.

Pseudocode:

Start

1. Take input as num.

2.  $X = 10 * \text{num}$

3. for (int i = num; i  $\leq$  X; i = i + num)

{ print (i)

}

End

Flowchart:
